Axon

THE LATEST AXON EVIDENCE RELEASE

New for the May release - Introducing new user and enterprise Wi-Fi configuration options for AB3 & AB4, Draft One, Axon app, Photobook, UK automatic number plate recognition, new handgun VR controller, virtual reality-based live action training, and more.

The May release is scheduled for May 22, 2024.

See the **Full Release Notes** PDF for details, including a list of resolved issues. The Axon Evidence Maintenance Schedule lists the updated schedule times for your region. We don't anticipate any downtime.

The May Axon release is coming soon. Below is a high-level look at the changes, along with a link to the complete release notes with more details.

Take me to the release notes

What's new in Axon Evidence this month

New for the May release -

- **Core platform change** - Reminder: End of life legacy sign-in. The new target release for legacy sign-in system shut off will be the June 2024 release.
- **Domain changes for Sign-in systems and Partner API** - Domain updates for our sign-in system and Partner API, designed to streamline and secure your connectivity. Prepare now by updating your network policies.
- **Draft One** - Draft narrative generation tool powered by body camera audio. Configure the header and footer messages that are prepended and appended to all generated drafts.

Axon Evidence - Enhance your search efficiency with a new feature that allows users to sort evidence by duration, available in ascending or descending order across table, gallery, and detail views.

- **Redesigned help page** - Explore the newly redesigned Axon Evidence help page. With streamlined navigation and direct download links, including a handy QR code for the Axon App, getting support is easier than ever. Remember to update your help page bookmarks!
- **Axon app** - Download the new Axon App from the iOS App Store; Android users can sign up to be notified upon release.
- **Axon Evidence Mobile**: Capture and View - Q4 2024 brings stateless session authentication to Axon Evidence Mobile, necessitating iOS 16+ and Android 11+, while dropping support for Android 10 and iOS 15.
- **Case management** - 'Retain folder structure' feature for case downloads, allowing users to maintain organized evidence files within their original folder hierarchy upon download.
- **Photobook** - Conveniently bundle images into single PDF files through the new Projects tab. Arrange images in any order for seamless presentation and review.
- **Third Party Video Support** - Enhanced Third Party Video Support in Axon Evidence with new playback capabilities for various file formats, improving multimedia compatibility.
- **Axon Evidence Local** - Introduces enhanced mobile app support, a new video retrieval feature, logging system upgrades, improved security for digital evidence support, and additional language support.
- **Axon Evidence Upload XT and XTMT** - Introducing Axon Evidence Upload XT Migration Tech (XTMT, designed to streamline the migration of legacy and physical media evidence directly to Axon Evidence with enhanced automation, supporting a wide range of formats and offering advanced scriptability for customized workflows.
- **Axon Investigate** - The 4.0.5 release enhances performance with .NET 8 and FFmpeg 6.1 upgrades, improved metadata clarity, and optimizes the audio alignment in the stitching workflow based on user feedback.
- **Axon Justice** - The trusted upload feature enhances collaboration by allowing Justice customers to upload data directly from designated third-party trusted partners, facilitating more efficient evidence management and case handling.

Other Axon product updates

See the full release notes PDF for details on the following items.

- **Axon Body 3 & Axon Body 4** - Firmware updates for AB3 and AB4, designed to improve functionality and user autonomy through advanced Wi-Fi settings.
- **Axon Fleet** - Background ALPR notifications and stability enhancements,

including fixes for crashes and ANT errors.
- **Axon VR** - Introducing a Handgun VR Controller and Virtual Reality-Based Live Action Training for enhanced, realistic training scenarios in Axon VR.
- **Axon ALPR** - UK organizations can now utilize Axon Fleet 3's ANPR feature, fully compliant with National ANPR Service standards, to enhance real-time law enforcement capabilities through advanced vehicle and office components. Organizations can opt to upload ANPR Records to Evidence.com.
- **Axon Academy** - Two new e-learning videos for Draft One, and two for Axon Justice within our Axon Evidence courses in Academy.
